16. UNAUTHORIZED HANDLING OF DUD AMMUNITION: All ranges and training areas on the Fort Benning installation are particularly dangerous due to unexploded ammunitions. Sometimes merely walking in the area of dud ammunition will produce sufficient vibration to release the firing mechanism causing the shell to explode. Prevention instruction and adherence to safety regulations will help avoid the misery and grief accompanying an injury or death for dud ammunition accidents. Fort Benning ranges and training areas are off limits to all unauthorized personnel. For emergencies and safety information contact the Range Division Radio Room at 545-3474/3479 (recorded).
